[A Deeper Green: How Research around Sustainability is Evolving](#)

04/30/2019

It is no surprise that a significant amount of research being presented for the first time at June's IAPRI Symposium focuses on sustainability in packaging, whether in terms of the properties and performance of materials or the behaviour and perceptions of consumers. Less obviously, though, there are changes underway in how and where this research is being targeted.

[IAPRI Symposium promises a packed program](#)

04/30/2019

On top of the usual three days of high-caliber oral presentations running across three parallel streams, this summer's IAPRI Symposium, hosted by the University of Twente, Netherlands (11-14 June 2019) is offering many additional highlights.

IAPRI News

[New Award to be give at the Upcoming IAPRI Symposium](#)

04/30/2019

Thanks to the sponsorship of Dr. Paul Singh there will be a new award presented at the symposium at the University of Twente. It will be called the IAPRI CAREER START AWARD. The purpose of the Award is to provide a packaging researcher, who has not yet participated at a IAPRI Conference, with the incentive to be a first time research paper presenter...

[IAPRI Announces the election of members to the IAPRI Board of Directors.](#)

04/30/2019

Three current directors and three new directors will serve three-year terms beginning June 14, 2019.

[Working Groups to meet at the 2019 IAPRI Symposium](#)

04/30/2019

IAPRI's four Working Groups will meet on May 11th according to the following schedule and agendas

Research News

[CETEA/ITAL has opened a call for Young Investigator Fellowship in Food Contaminants from Packaging](#)

04/13/2019

The Institute of Food Technology (ITAL) opens applications for the selection of candidates for a Young Researcher (JP) scholarship in the research area of Food Chemical Contaminants arising

from the migration from packaging materials. The JP should develop a research project to expand the Institute's activities in the area of Food Safety and Health,...
